Timing of appearance Bantam book:

"Midnight" had a front cover reading "Jackie is Frigid", "Inside" one saying Jackie and Onasis knew all and would tell Garrison all -appearing after the New Orleans trial was over, with neither appearing or in any way being mentioned (Onasis having allegedly spent a large part of his not inconsiderable fortune to get the inside dope, etc.)

It is a meaningless, undependable "biography" of the midwest Tobacco Road that spawned Ray, with generous, evenless meaningful accounts of his relatives and their seamy half-lives, to which an inadequate initial chapter about the trial, which Wlair never did understand, and the transcript of that proceeding have been added. This is pseudo writing about pseudo people by a pseudo reporter who began with the official preconception and the determination that he wuld in no way question it.
